Note to the educator:

Here are a few websites that you might find of interest for some of these amazing creatures.

Pink Dolphin:

The pink dolphin is a rare species found in the Amazon.

<http://www.squidoo.com/pinkdolphins>

Kinkajou is also known as a honey bear when you do your “internet search”

<http://www.honolulu zoo.org/kinkajou.htm>

The Quetzal’s full name is actually Resplendent Quetzal.

Wasp is the fascinating Tarantula Wasp. In our picture, it is the one used on Wikipedia where it is dragging it’s prey. COOL!

http://en.wikipedia.org/wiki/Tarantula_hawk
