

How to use the meander mini books? Because most of my lapbooks are created for enrichment, the emphasis is on delight and enjoyment. These mini books have two lines under each topic, so all that is needed is a list or a one or two word answer. One more tip: Answer each one before you cut out because it is easier to write on these tiny books when they are a whole page. Use the free teacher guide listed [here](#) to help you.

Instructions for meander book:
Cut on solid black lines around edge of whole page. Cut on the bold black horizontal line, but do *not cut all the way through*. First, fold the cover page that has title *back* behind page 1, then fold 1 over to page 2. When you get to page 3, fold page 2 *under* page 3. Then continue accordion fold on that row. Cut out pocket and store mini book in mini pocket

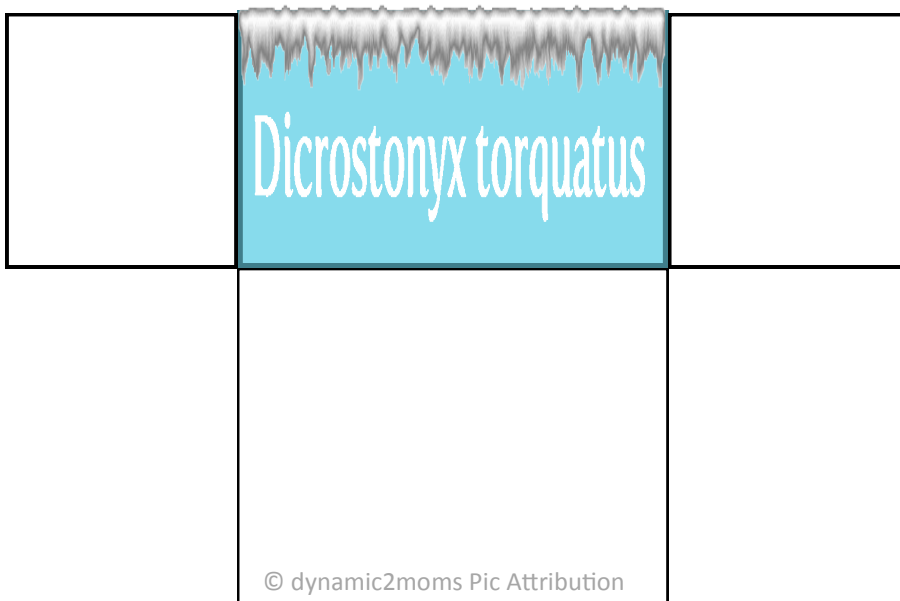

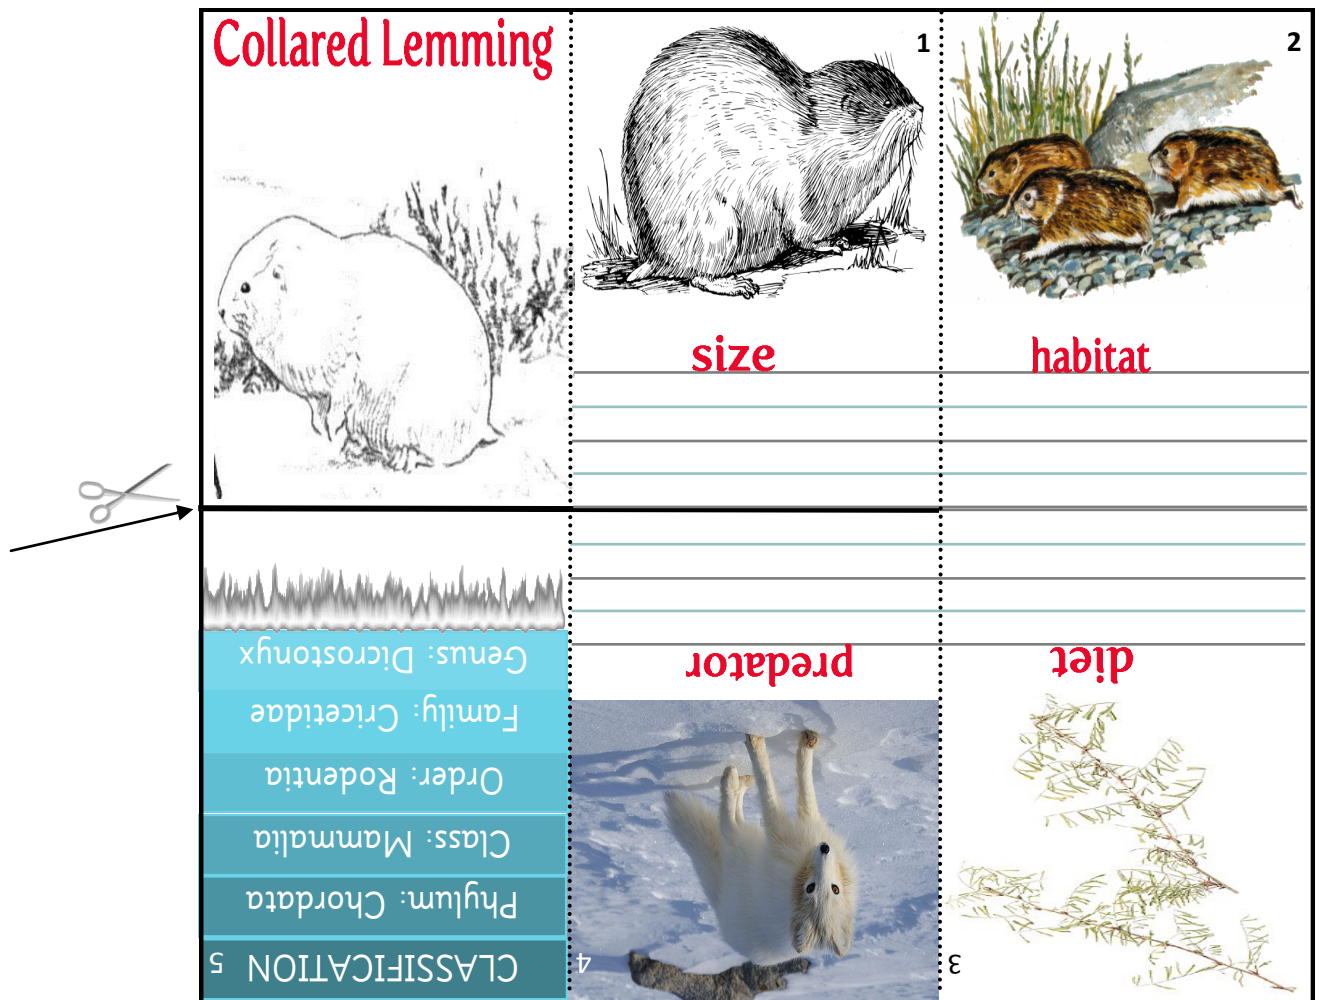

CLASSIFICATION	Phylum: Chordata
	Class: Aves
	Order: Charadriiformes
	Family: Laridae
	Genus: Sterna
