

Be sure to cut out the life cycle of cotton as one book. You will fold it accordion style to fit in the open boll of cotton pocket. Fold the "bloom" page back behind the "seedlings" page and the seedlings page will be on top.

Note: When you fold the tabs back on the cotton boll pocket, be sure to glue them only onto the middle tab and not place glue ALL over the side tabs. Put glue only at the ends where it touches the middle tab.
