

Squirrels build nests called "dreys" or "dens". Here is my squirrel's nest made of twigs and leaves.

Look at my squirrels big tail. He uses his tail to help him keep his balance.

This is a picture of my favorite squirrel.

Squirrels chew on tree branches like this to sharpen and clean their teeth.

Most squirrels eat nuts, seeds, grain and fruit.

After your child illustrates the story, cut out on outside lines.

Be sure to cut through the solid middle line but don't cut all the way through. Then fold accordion style by folding Page 1 **BACK**, not over like you did in the pumpkin book. Then continue accordion fold. When you get to the end or Page 4, fold that page **UNDER** page 5. Then accordion fold to page 8. Then place your squirrel in his tree trunk :o)
