

Lined writing area for student responses.

What is the Ocean?

What is the difference between an Ocean and a Sea?

I would use regular paper on this instead of cardstock because it will be too thick by the time you fold it.

Cut out as one piece. Fold in half. Then do the easy labeling after consulting an Atlas. Write in an easy definition and cut to form two tabs.

Tri fold. This is the back and glues to your page.

Oceans
