

Cut out this minibook as one piece. Fold in Half. Cut on two solid lines below to form 3 lift tabs.
Don't cut all the way through. Stop below the blue title bar.

On the next page, cut out pages to go inside this book. Research about each of these groups and write your research or write about the type of marine life illustrated on the picture for each group.
Listed on the next page are examples of marine life: Plankton, Blue Whale would be an example of an animal that swims freely and Brittle Star would be a creature that lives on the ocean floor.

Glue the inside pages inside this book under the correct tab.

3 Types of Marine Life

Plankton

*Animals that
swim freely*

*Creatures that
live on/near
the ocean floor*
